Tues April 3  Gay, Lesbian & Bisexual Issues 18:821:650 (Glassgold)

Clinic Positions for Fall, 2007

Applications are now being accepted for one Clinic Coordinator position, beginning in September 2007. As you may know, two of our coordinators are from the clinical program and one is from the school psychology program. This year’s position will be filled by a clinical student. This is a full graduate assistantship with a two year commitment for 15 hrs per week, September through June. Limited hours in July and August are shared among the three coordinators and paid extra.

The coordinator position is considered your two day per week clinical practicum. This position requires experience in clinical diagnostic interviewing and report writing, excellent telephone and interpersonal skills, sufficient clinical experience with a wide range of patients, a solid record of efficiency and responsibility in work settings, flexibility in time scheduling [i.e., the lack of other practica, dissertation, or heavy course loads], and the ability to work well as part of a small team. The kind of student who works best in this position is someone
Clinic Positions for Fall, 2007-Cont’d

who is FLEXIBLE, can operate FAST, multi-task in an ORGANIZED way, and work independently with good judgment. Day to day tasks include phone interviewing, diagnosis, presenting cases in our meeting to get them assigned, lots of computer database and spreadsheet work to keep our processes organized, training students on record keeping system and video recording system, training them on phone systems, crisis work with clients who show up in trouble [not a frequent event], assisting the Clinic director in projects, and generally being around and being helpful to all. Preference will be given to applicants who have experience with, and openness to, the major theoretical orientations and models of treatment. Skills with Access, Excel, computer information systems, networked databases, program development and evaluation, and foreign languages are also valuable.

The Graduate Assistantship includes a salary of $16,900, tuition remission, 6 credits of summer tuition remission each of two summers, plus a waiver of all student fees and a full benefits package.

Applications will be accepted by email to dmorgan@rci.rutgers.edu. Please include a letter outlining your qualifications and a curriculum vitae. We are aware that students must choose next year’s practica soon, so the deadline for applications will be February 16 and decisions will be made by February 28.

TESTING COORDINATOR

Applications from advanced School Psychology students are now being taken for the Testing Coordinator position that will be open for the 2007-8 year. This is a one year commitment for 7 hours per week that needs to be divided flexibly over two or three days.

Duties include maintaining the test library, ordering, cataloging and distributing tests to all students, and assisting in the teaching of Cognitive Assessment and Learning Disabilities Assessment courses. Applicants will be experienced in the administration and scoring of all the major cognitive and achievement instruments. Skills in personality assessment and neuropsychological testing, as well as computerized scoring packages are valuable.

This position is partially funded by work-study, so preference will be given to applicants who will apply for and be awarded a work-study grant. Those who may not qualify for work-study are encouraged to apply in the event that no one with work-study does. The salary from September through June is $7000 and does not include tuition remission or benefits. It does, however, come with an office for your use and includes extra payment for assisting with the summer cognitive assessment course.

Applications will be accepted by email to dmorgan@rci.rutgers.edu. Please include a letter outlining your qualifications and a curriculum vita. The deadline for applications will be February 16 and decisions will be made by February 28.

Meadowview Psychiatric Hospital is looking for a Psy.D., Ph.D. or "A.B.D." to work on their inpatient psychiatric unit in Secaucus, New Jersey. They are offering a very competitive salary and will provide supervision for licensure. Its a great team and a wonderful opportunity to provide extended care to a population that is often rushed in and out of acute settings. Most of the patients stay at the hospital for a few weeks or months for additional stabilization (others may stay longer).
