ALUMNI NOTE OF INTEREST

Rosalind Dorlen, 1977 Clinical Psychology graduate and Peterson Prize winner was interviewed by CNN on Monday, October 6th. The segment will air this Saturday, October 11th at 9:30am and 3:30pm and again on Sunday, October 12th at 3:30pm. The topic is stress and the economy.

COLLOQUIUM

Dr. Jerry Berlin
Part-Time Lecturer / Organizational Psychology Program
“My Personal and Professional Relationship with Carl Rogers”
October 29, 2008
12:15—1:30 Room A317
Graduate School of Applied and Professional Psychology

Jerry Berlin worked with Carl R. Rogers for six years at both the University of Chicago and the University of Wisconsin, and received his Ph.D. from the former institution in 1961. Early in his career as a clinician, he became interested in applying emerging psychotherapeutic principles to the development of organizations and communities. Since then, he has consulted with a wide range of institutions ranging from large public corporations and federal agencies to smaller, more unique, institutions, even including a Trappist monastery.

Because of his training and experience as an aviator, Jerry has often consulted within the aerospace industry. He is best known for having developed the Cockpit Resource Management programs now in use by the major air carriers and the U.S. Air Force. During the decade of the seventies he taught at the University of Haifa and served as a full time officer in the Israel Air Force.

Dr. Berlin maintains an interest in teaching and training young psychologists and presently holds an appointment as a part time lecturer at the Graduate School of Applied and Professional Psychology of Rutgers University.

CANDIDATE FOR THE SCHOOL PSYCHOLOGY FACULTY POSITION

T. Chris Riley-Tillman, Ph.D.
Associate Professor, Department of Psychology, East Carolina University
“Direct Behavior Ratings: The New Emerging Alternative”
November 5th, 2008
12:15 –1:30 pm Room A317
Graduate School of Applied and Applied Psychology

This presentation overviews a comprehensive research program which is focused on the development and validation of Direct Behavior Ratings (DBR) for use as a social behavior formative assessment methodology. The defining characteristics of DBR include the directness of observation, the observation of specific behaviors, and an evaluative component of ratings. DBR instrumentation and procedures combine the benefits of both behavior rating scales (i.e., efficient data recording) and systematic direct observation (i.e., data recording that occurs at the same time and place of behavior).
LUNCHEON SERIES 2008-2009

The Rutgers Club, 199 College Avenue, New Brunswick, NJ
732-932-6550

“Why Group? The Unique Benefits of and Resistances to Group Treatment”

David Panzer, Psy.D., Brett Kociol and Ben Mueller

The following topics will be covered in the presentation, using helpful case examples:
**The ways in which groups afford clients unique experiential opportunities
**The ways in which groups can enhance individual treatment
**The anxieties associated with group membership and referral

Dr. David Panzer is Director of Services at Group Psychotherapy Services and is a Contributing Faculty Member at GSAPP, Rutgers University. He is a Clinical Associate Professor at RWJUH Medical School and is a former President of both NJPA and NJ Group Psychotherapy Society. Dr. Panzer has a private practice in Highland Park. Brett Kociol and Ben Mueller are advanced doctoral candidates in clinical psychology at GSAPP, Rutgers University. They are Coordinators of Services at GSAPP’s Group Psychotherapy Services, which Brett co-founded. Brett’s research involves the exploration of anti-group bias as it relates to attachment theory, while Ben’s research focuses on mandated group treatment in a university setting.

The goals of Group Psychotherapy Services at GSAPP are to provide Psy.D. and Ph.D. candidates at Rutgers Univ. extensive training opportunities in many different facets of group treatment, to offer high-quality and low-cost group treatment options to the local community and to service as a resource to area clinicians to enhance individual treatment that they already offer.

JOB ANNOUNCEMENTS

Laurel House Middlesex has two staff positions that need to be filled ASAP.

**Executive Director**
Laurel House Middlesex is a new Clubhouse in New Brunswick based on the ICCD Model. We seek an Executive Director to lead our efforts.

This individual must be fully committed to making Laurel House Middlesex a success, and be willing to invest the time and energy to make it happen. In return, they will receive the support of an active Board, acceptance of a willing community, and enthusiasm from waiting members.

This person should have at least 3 years of experience working with people with persistent mental illness, have excellent interpersonal skills, a belief in the Clubhouse approach, good management track record, and be committed to achieving fundraising goals. Salary and fringes will be commensurate with experience.

Submit resume and cover letter describing why you are qualified for this position to: Jack Gardner, Chairman LHM Board of Directors at gardsavas@aol.com

**Program Manager**
Would you like to make a difference in peoples' lives? Consider this opportunity.

Laurel House Middlesex is doing that for people with mental illness. We provide training and support that help people overcome stigma and secure employment. We seek an empathetic individual with a recent degree to become our Program Manager.

This is a new, full-time position. Salary commensurate with experience. Duties include:
- Develop and manage our 9 to 5 daily programs.
- Organize and supervise work units at our Clubhouse
- Organize social, recreational and fitness activities for members.

Submit resume and cover letter describing why you are qualified for this position to: Jack Gardner, Chairman LHM Board of Directors at gardsavas@aol.com

Rutgers Center for State Health Policy is seeking a graduate student interested in getting involved as an hourly research assistant in a new health intervention research project in New Brunswick, NJ. The position will focus on diabetes patients. Hours are flexible; interviews will be arranged to fit with patient visits. The graduate student would be involved in project design and management, if he/she has the skills and interest. Requirements are as follows: Basic Spanish speaking skills (as more than half of the patients are Latino), simple analysis (basically at the level given in graduate Research Methods courses), interest and experience in conducting qualitative research or working with patients in a health care setting.

Interested students can contact Marsha Rosenthal, P.P.A., Ph.D., Assistant Research Professor, Center for State Health Policy, Institute for Health, Health Care Policy and Aging Research at her email address: mrosenthal@ifh.rutgers.edu
The Foster Care Counseling Project encourages anyone interested in helping children in foster care to join the Nation’s Inaugural Walk for Foster Care, a 5K benefit for Foster and Adoptive Family Services, which will be held at 1:00 p.m. on Sunday, October 19, at Buccleuch Park in New Brunswick. For more information on the walk (to register or make a donation), go to the website www.fafsonline.org and click on the Walk Me Home icon in the lower right, then go to the New Brunswick, New Jersey site.
