COURSE WRAP-UP

FINAL PAPER OR EXAM DUE
Required Texts

Fisher, C. (2009). Decoding the ethics code. 2nd Edition. Thousand Oaks, California: Sage Publications. This is our core text, which we will be reading in its entirety.

Collection of articles - available on Sakai.

Course Objectives

By the end of the course, the student should have:

1. An increased understanding of the current and historical experience of professional psychologists, the development of the field and its professional and ethical challenges.

2. A knowledge of the ethical principles, practice standards, regulations and laws governing the practice of psychology and how they apply to typical situations encountered by psychologists.

3. An enhanced ability for ethical reflection and an increased ability to apply this kind of thinking to everyday ethical challenges.

4. The opportunity to reflect upon personal career goals, interests, development and possible future directions.

Assignments and Evaluation

1. Student Panel Presentation

Each panel will be composed of two of more students who will work together on developing a presentation to the class around a particular set of professional issues, as listed on the syllabus. The goal of the panel is to convey the key issues, concepts, facts or learning points in a way that makes them interesting and accessible to the class. Groups are encouraged to design their presentations to maximize the experiential involvement of the class, for example, through:
• roleplays of an ethically challenging situation
• case discussions
• mock court
• quiz or game show formats;
• a simulated talk-and-debate TV show (e.g., “Cross-Fire”)
• videotaping interviews with knowledgeable subjects

Previous classes have found the development of their presentations an excellent chance to employ creativity, drama, group process skills, and instructional techniques in mastering complex, controversial didactic material. Each group should plan on a time frame of 75 minutes. As we sort ourselves into groups in the first class, some adjustment may be made to this in view of student interest.

The written requirement of this assignment is to develop a document that will serve as a resource on the topic for your peers. These can be "Fact Sheets," containing the salient points in the area in outline form, key definitions, explanations of laws and/or recommended resources and readings. Make copies for each member of the class.

2. Career Role Interview

Over the past few years, the Professional Development course has employed a Career Role Interview exercise as a way of exploring issues of careers and career development in professional psychology. This gives you the opportunity to further tailor the course to your own interests and development by selecting a senior colleague to speak with about his or her career. We will be discussing the format of the interview and the selection of interviewees in class.

3. Passing the Human Subject Certification Program

The Office of Research and Sponsored Programs of Rutgers University offers a web-based learning and testing experience that is a prerequisite for obtaining IRB approval of quantitative and/or qualitative research associated with dissertations. Almost all of you will need to pass this test and receive certification in order to be able to complete your dissertation. The subject matter of this program, the ethical conduct of research with human subjects, is very relevant to this course, and the course will also provide an opportunity to discuss some of your learnings.
Anyone who has not yet taken and passed this online mini-course will need to do so by Class #3, when we will discuss it in class.

4. Self-Assessment Quizzes

This course requires mastery of a lot of content, some of it on first reading (codes, laws, etc.) somewhat on the dry side. To help in focusing and in the mastery of subject matter that will be important not just for Comps and licensure, but most importantly for your professional practice, we will have several quizzes. These will focus on the laws, codes, regulations and their application to actual practice. Answer keys will be provided for self-scoring so you can check your own growing knowledge base and immediately correct your work.

5. Final Exam or Paper

You have your choice of the following. Choose based on what is best for your current learning goals:

a. “Open Book” Take-Home Exam: To aid you in reviewing and integrating the material in the course, and to help you prepare for General Comps, there will be a take-home exam. 
b. You may also choose to write a paper on an area of special interest. Topics should be discussed with the instructor.

Instructor Availability

I will be at GSAPP on Mondays. Appointments for other times can be arranged in my office in Highland Park. Leave a message on my office phone at (732) 247-7489. My email address is kskean@aol.com.

Readings

Readings beyond the required text should be available on Sakai or by a link to a web site. Over the course of this class, students should have read most of the material recommended for General Comps preparation for the “Ethical and Legal Issues” question.
READING ASSIGNMENTS BY WEEK

Class 1

Introduction and Overview

In general, begin your reading of the required text, Fisher’s Decoding the Ethics Code. Pages required for today are listed below, but the sooner you have this core knowledge of the APA Ethics Code under your belt, the better.

Philosophical Issues

History of Professional Psychology

Peterson, D. R. (2003). Unintended consequences: Ventures and misadventures in the education of professional psychologists. American Psychologist, 58, 791-800. This is an essay on the current state of professional schools and recommendations for improving the quality of education in our field.

Class 2

APA Ethical Principles and Provider Standards, Part I

Fisher, C. (2009). Decoding the Ethics Code. Read as much of this basic course text as you have time for, finishing up over the next week when the reading is lighter, with particular attention to sections that pertain to your own career path.

Licensing Laws and Malpractice

New Jersey Licensing Law and Regulations (available on Sakia and also on the Board’s Web site as a PDF File: http://www.state.nj.us/lps/ca/psy/psyreg.pdf)

Class 3

Ethics in Research

Have completed the IRB online course.

Professional Health

APA Ethical Principles and Provider Standards, Part II

Finish your reading of Decoding the Ethics Code. In addition, look over some of the specialty guidelines below.

Class 4

Access to Information: Confidentiality and Duty to Warn
Access to Information: Informed Consent, HIPAA

Review the relevant Fisher sections.
Class 5

Ethics of Becoming a Culturally Competent Psychologist

Dual Relationships and Conflicts of Interest

Role of Professional Organizations

Spend some time browsing the APA Website. You may also want to browse some specialty websites as well, such as NASP or APA Divisions relevant to your career goals.

Class 6

Ethical Challenges of the 21st Century

http://www.washingtonpost.com/wp-dyn/content/article/2010/03/29/AR2010032902942.html

Seasons of a Professional Life: The Career Role Interviews

We will be discussing the career role interviews. You will have turned in a copy to me the previous week, but bring a duplicate copy for yourself to this class.
